Introduction

Enlightened Leadership

The world of work is changing faster than ever. A global pandemic hasn't just shifted people's experience of work, it's shifted people's expectations. Effective leadership has never been more important.

We know 20th Century leadership skills are no longer fit for purpose. That style of "management" was about defined hierarchy, task completion and pre-determined outcomes (fixed KPIs).

Modern leadership is different. Leaders are increasingly working in devolved or fluid hierarchies using more agile methodologies to achieve progressive outcomes that will propel their organisation forward.

Leadership is no longer about those that "know best". It is about resourcing the development of skills that bring out the best.

That's what we call enlightened leadership; skills for a 21st Century world.

“

Amanda's Enlightened Leadership program has been a game changer for me. [...] I highly recommend this course to anyone in a leadership role in some form or another.

Meet Your Facilitator

Amanda Fleming has worked with people at all stages of leadership for more than 30 years.

She is a sought after transformational facilitator with a proven track record. Grounded, safe, and immediately applicable learning is the hallmark of her work.

Transformational Programme

What You Can Expect

This proven 9-month programme delivers the skills and capabilities to effectively and adaptively lead in today's environment.

This is the only publicly accessible opportunity for this transformational programme and places are strictly limited.

It is most most rewarding to those who are self-motivated and committed to their own growth and personal development as part of an ongoing professional development process.

Suitable for emerging or established leaders, this programme can be considered a full-time course with part-time attendance focused on;

- ✓ Developing self
- ✓ Developing people
- ✓ Developing teams

“

[...] I've become more confident as a leader and more effective in my workplace. The programme gave me more tools to use, and importantly helped clarify when and how to use them. This programme isn't just theory, you'll apply the skills you learn in a safe environment where its okay to make mistakes [...]
